SCOPE OF WORKS

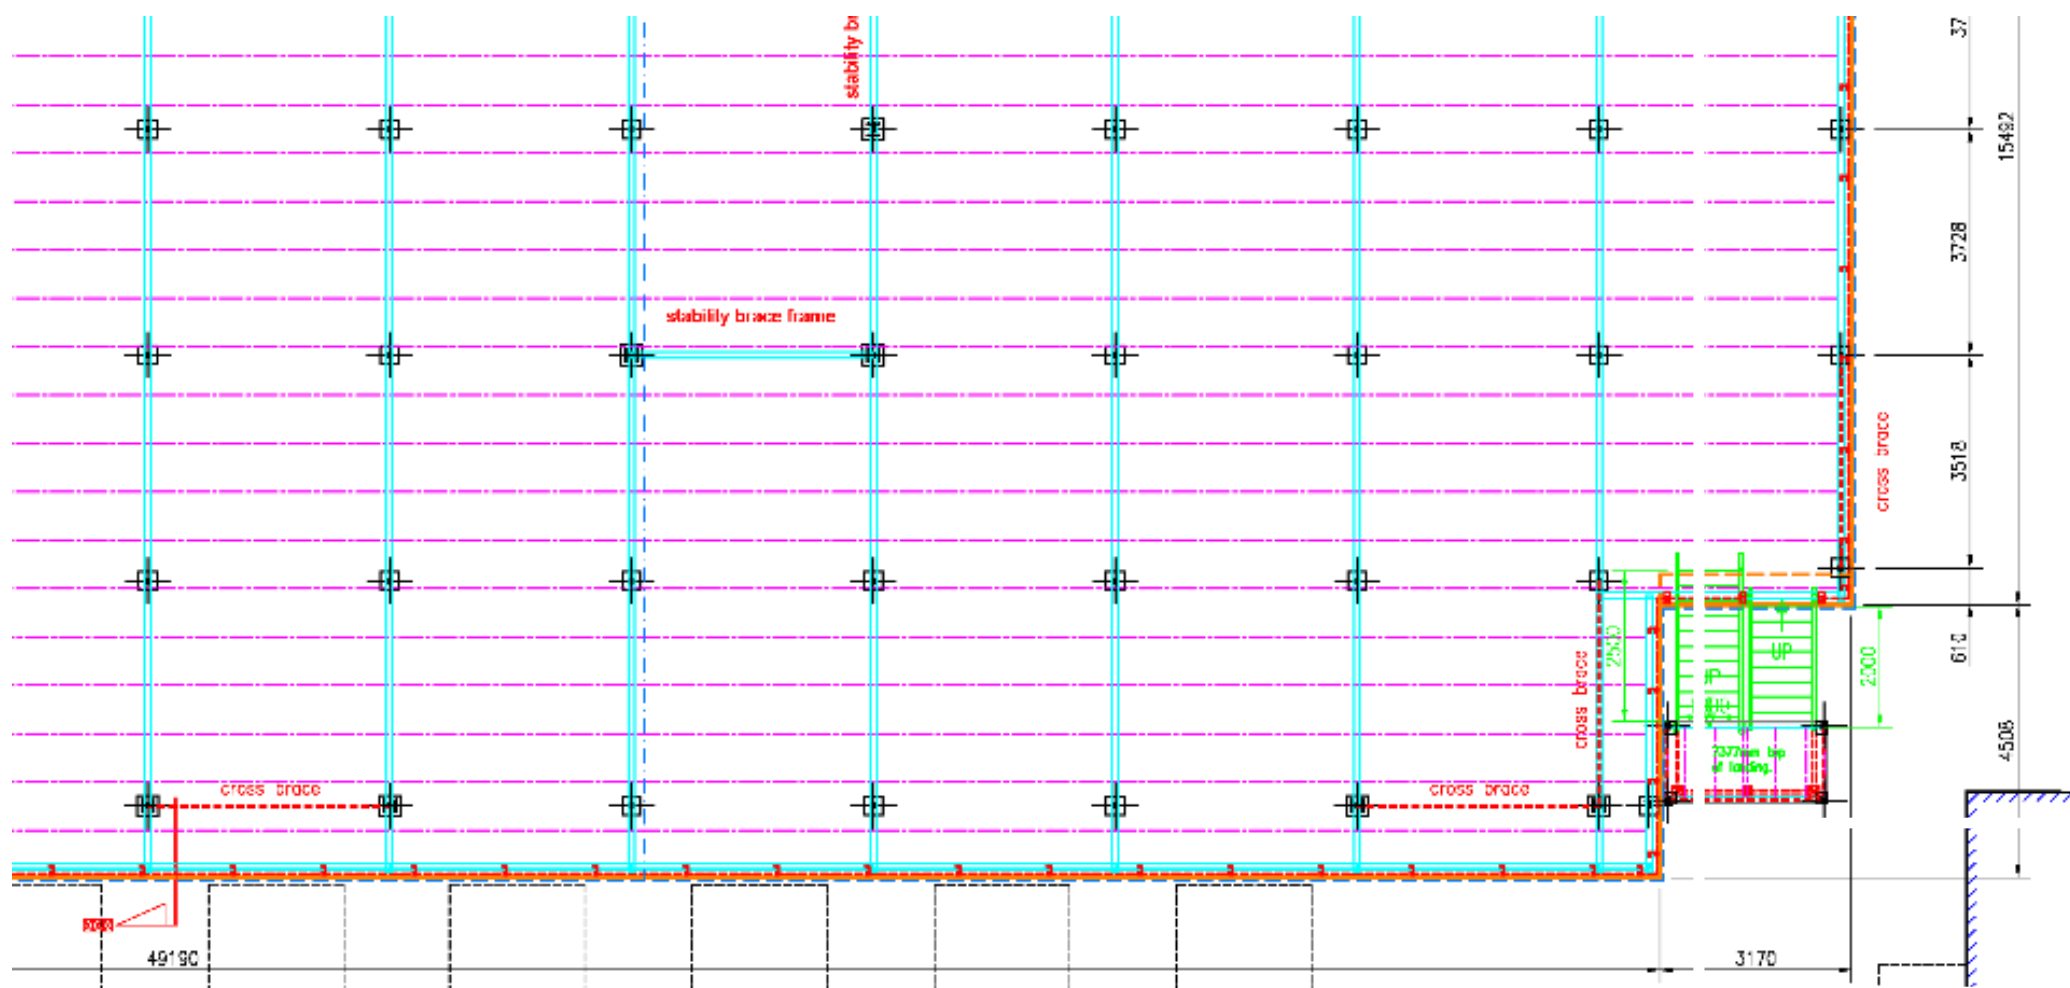

ACI successfully completed an extensive project for one of the UK's Leading 3PL Provider, constructing a two-story mezzanine floor spanning over 2000m². The project scope included constructing a fully fire-rated structure to ensure maximum safety and compliance with all regulations. Key features of the installation involved integrating advanced sprinklers and M&E systems to enhance fire protection and operational efficiency. Additionally, we constructed a fire-rated staircase enclosure and provided column protection to safeguard structural integrity. Shelving was installed around the perimeter of both floors to optimize storage and organizational capacity.

HEALTH, SAFETY AND COMPLIANCE

Ensuring health and safety and adhering to regulations were crucial during the project's planning and construction phases, protecting workers, maintaining compliance, and ensuring the project's success and integrity.

key:

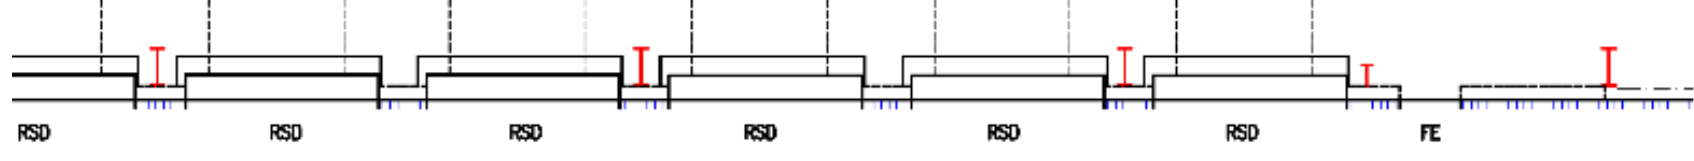

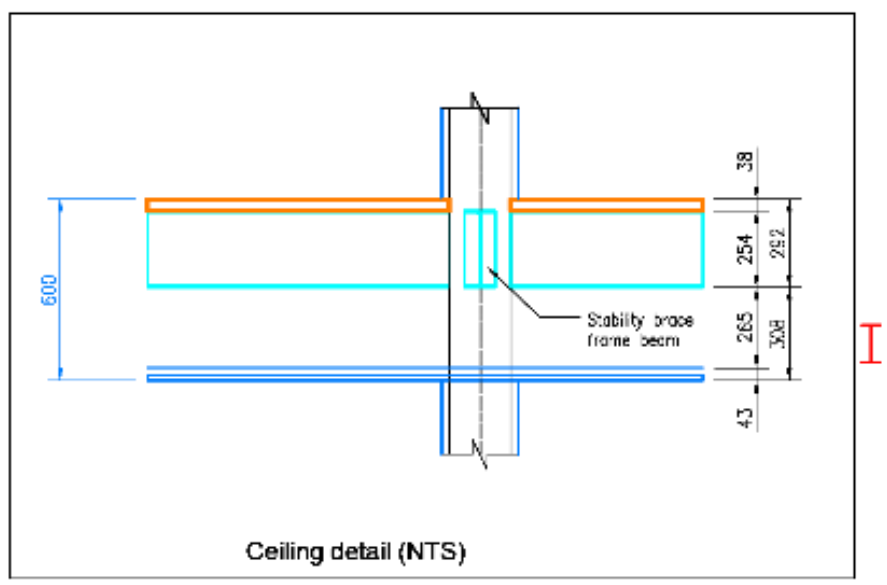

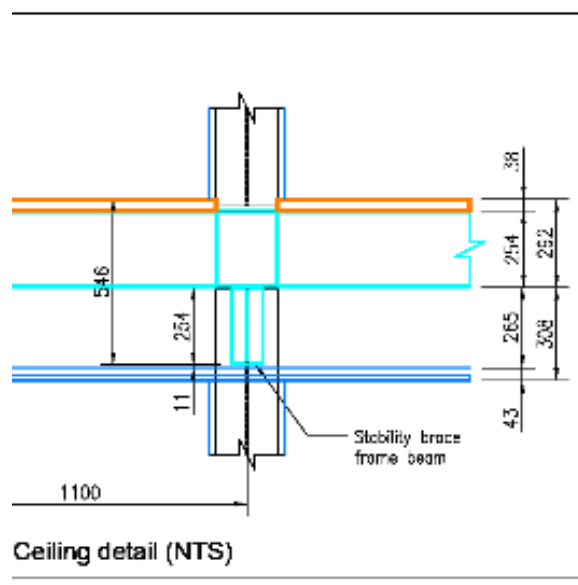

Elbows for corners and finishing

Release

150*70*10 RSA Bolted to Beam 2*4*12 Bolt

NOTE: All tek screws to be on outside faces of edge protection

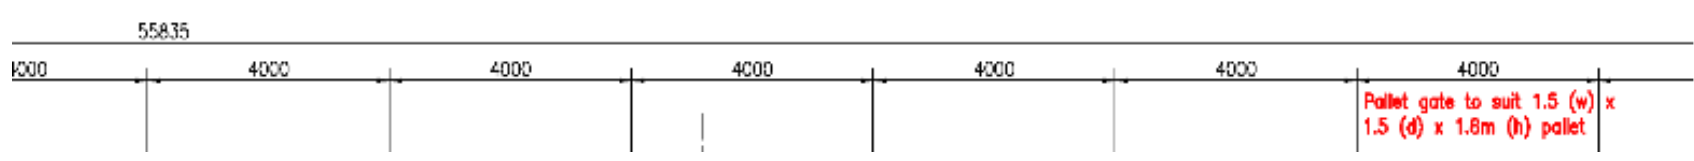

NOTE: All open edges to be protected by Advanced Commercial Interiors

DETAILED DRAWINGS FOR PERFECT EXECUTION

We deliver comprehensive and carefully detailed drawings to clients before starting any project. These drawings, covering everything from spatial layouts and electrical plans to custom furniture designs, ensure every aspect is precisely planned. This attention to detail facilitates clear communication, identifies potential issues early, and guarantees a smooth, efficient project execution with high-quality results.

OUR PROMISE TO YOU

From our inception in 2009, we have grown to become one of the UK's leading office design and fit out companies.

Our staff, from the ground up, we are focused on creating some of the most inspiring working environments that the UK has seen, paying close attention to the quality of service and finish that we provide.

We firmly believe that this is the reason some of the UK's leading brands have chosen us to carry out their office and warehouse design and fit out works.
